Study Name: Phase III Clinical Trial of Receptol, A New Anti AIDS Product from Biomix Network Ltd

Sponsor: Ministry of Health, National AIDS Control Organization and Biomix Network Ltd

Investigator: Dr Girish Rajadhyaksha,
Conducted at: L T M M C & LTMG Sion Hospital

Monitored By ICMR National Observers:

Dr Ganga Khedkar, Dy Director National AIDS Research Institute (NMRI)
Dr Urmila Thatte, HOD Dept of Clinical Pharmacology, Nair Hospital

Complete raw data of Phase III Receptol Trial

Chunilal

CASE RECORD FORM

EVALUATION OF EFFICACY & SAFETY OF RECEPTOL ,A PURE NATURAL PRODUCT, ON AIDS PATIENTS

Study centre	L.T.M.M. College and General Hospital, Sion(W), Mumbai – 400 022
Chief investigator	Dr. G.C. Rajadhyaksha M.D.
Co-investigator	Dr. Neelam Redkar, M.D. Dr.Rupal . H. Malye, M.D.
Sponsor	Biomix Network Ltd.
Co-ordinator	Dr. Pawan Saharan, CEO: Biomix Network Ltd. Millennium Business Park, 303/6/III, MIDC, Navi Mumbai – 400 709
Patient No.	BNL001

PATIENT INFORMATION FORM

What is RECEPTOL?

RECEPTOL™ is a pure natural product obtained by pooling the first milk, obtained from cow, soon after the delivery of the calf. It is a highly purified extract in a natural form with all the ingredients for keeping the body free of all infections and healthy. It has natural interferon, cytokines, immunoglobulin and proteins that protects one from infections of all kinds, including those of viruses such as AIDS etc. This has been a time-tested product for centuries and now is being purified using Nanotechnology in the most scientific manner with a user friendly delivery system i.e. in the form of an oral spray!!!

What I have to do?

For this study, the patient is recommended to be hospitalized for the first 30 days, so that all the necessary examinations and the tests can be done on a regular basis, in order to monitor the changes brought about by the product. We will be conducting blood examinations for HIV like CD 4/8 Counts and Viral Load, Liver function tests, X-ray chest, ECG and other tests free of cost. We will provide the 30 days hospital stay and 90 days entire treatment with RECEPTOL free of cost!!!

How should I use it?

The patient has to spray the product 4-6 times on the inner side of his cheeks every 4hrs, and totally 6 times a day for maximum effect. Once used, the product has to be refrigerated and stored in a clean and proper way. The patient is advised to take plenty of fresh water and fluids. Food from home is permitted – preferably vegetarian food as non-vegetarian food can interfere with the treatment.

Is it effective and safe to use?

Yes!! This product has been tried in many countries around the world and has met with great success in HIV infected patients. It was shown to be highly effective and very safe with absolutely no side-effects. This product can be taken even after treatment for the general **well-being** of the body.

INCLUSION CRITERIA

	Yes	No
1. Subjects should be between 18 and 60 years of age.	☑	☐
2. Documentation of HIV infection by any licensed ELISA test, disease contacted heterosexually (No drug abuse) preferably with in six months.	☑	☐
3. Subjects having CD4 count greater than 100 cells/mm(3)	☑	☐
4. Subjects have measurable HIV viral load.	☑	☐
5. Subjects must have the ability to give informed consent, physically healthy & fed.	☑	☐
6. Willingness to give informed consent for stay in the hospital & follow-up visits	☑	☐

EXCLUSION CRITERIA

	Yes	No
1. Pregnant or nursing women, women of childbearing potential not using an adequate method of birth control	☐	☑
2. Subjects with kidney failure with serum creatinine greater than 1.5 mg/dL	☐	☑
3. A history of hepatic cirrhosis (Child C)	☐	☑
4. Congestive heart failure (NYHA Class IV)	☐	☑
5. Current alcohol or drug abuse that could interfere with patient compliance.	☐	☑
6. Organ transplant recipient.	☐	☑
7. Preexisting uncontrolled seizure disorder.	☐	☑
8. Subjects using systemic corticosteroids, immuno-suppressive and ART	☐	☑

OUTCOME OF THE THERAPY

Investigator's overall comment:

Efficacy: Receptol used as Stand alone therapy on the patient showed remarkable efficacy, fully treating the patient with viral load below LLD by PCR & well tolerated with no side effects even after 6 months of the treatment

Safety/ Tolerability:

Patient's feedback:

Efficacy: [illegible]

Tolerability: [illegible]

Patient Signature / Thumb impression:
